**TYLÖ COMBI HEATER**

The Tylö Combi™ is quite simply the most sophisticated sauna heater on the market. It is a sauna heater with a built in steam generator – the only heater that lets you enjoy traditional saunas and steam or herbal saunas (Tylarium™) in one and the same room. Choose a traditional sauna at 68–90°C in a relative humidity of 5–35%, or a steam sauna at 45–65°C generating 40–65% humidity. The Combi has an electronic control panel integrated into the front of the heater's front buffer rail.
