TYLÖ COMBI HEATER

The Tylö Combi™ is quite simply the most sophisticated sauna heater on the market. It is a sauna heater with a built in steam generator – the only heater that lets you enjoy traditional saunas and steam or herbal saunas (Tylarium™) in one and the same room. Choose a traditional sauna at 155–194°F in a relative humidity of 5–35%, or a steam sauna at 110–150°F with constant or pulsating clouds of steam in 40–65% humidity. The Combi has an electronic control panel integrated into the front of the heater's front buffer rail. Divided output for constant temperature.

TYLÖ-COMBI	Tylö Combi-7 (7 Kw upgrade for 4'x 5' up to 7'x 6' sauna kits)	\$1335.00
	Tylö Combi-8 (8.3 Kw upgrade for 6'x 8' up to 8'x 8' sauna kits)	\$1415.00

Extra cedar available to finish off exterior walls of sauna or for change room.	Call for price
Wood burning sauna heater can be substituted for electric heaters.	Call for price
